

The WaterShed 16 BY CALLAHEAD

The WATERSHED 16 is a CALLAHEAD invention that delivers fresh non-potable water to any remote location. Whether you require water for long-term jobs or short-term special events, the WATERSHED 16 will supply 130-gallons of freshwater when and where you need it. The WATERSHED 16 can be refilled daily, weekly, monthly or upon request.

CALLAHEAD commonly rents the WATERSHED 16 for construction sites, water shut-offs, restroom trailers, or any job in need of fresh water, and does not have any domestic plumbing or water supply on-site. It also provides an incredible 50 pounds of water pressure. Invented and designed by Charles W. Howard for CALLAHEAD, the WATERSHED 16 supplies freshwater plus has an architectural design that will add value to any location. An internal heater and superior insulation will eliminate any chance of water freezing in New York's bitterly cold winter months to ensure guaranteed fresh water all year round.

The WATERSHED 16 was built using only premium heavy-duty materials and is completely weather tight. The high-density polyethylene marine grade plastic construction with diamond plate marine grade aluminum panels and stainless steel fasteners enhance the spectacular design. The WATERSHED 16 comes in various color choices of white, grey, blue, green and orange. The five different metals on the exterior look amazing. For security, the commercial grade aluminum door has a key lock entry.

The WATERSHED 16 is an excellent rental for landscaping and irrigation jobs. Emergency situations, swimming pools, spas and hot tubs, mixing cement and masonry work, frozen pipes, and just about any location in need of domestic and pressured water supply will benefit from the WATERSHED 16. The WATERSHED 16 has an internal heating system which is thermostat controlled for year-round use. All hoses are heat traced to prevent freezing. There is also a four-way 110-volt electrical outlet and a pull chain light fixture inside the unit. As an added feature, the WATERSHED 16 interior has elegant high gloss painted finish to match the marine grade plastic.

CALLAHEAD's WATERSHED 16 provides a substantial 50 pounds of water pressure, which is better than the average homes pressure of 40 pounds. The built-in well-pump has an expansion tank to deliver excellent water pressure to any remote area. The WATERSHED 16 is like having a domestic water hook-up in remote locations without plumbing or water available. CALLAHEAD also offer the option of adding an external hose cock, water hose, hose nozzle and external hose reel with any WATERSHED 16 rental.

Charles W. Howard invented the WATERSHED 16, CALLAHEAD's President and CEO and it is a CALLAHEAD exclusive. Since 1976, CALLAHEAD has been advancing the portable sanitation industry with groundbreaking products and services. The WATERSHED 16 is yet another achievement solidifying CALLAHEAD as the leader in the industry.

OPTIONAL ACCESSORIES TO RENT:

For added convenience, we are proud to offer the below list of optional accessory items to your WATERSHED 16 rental to accommodate your jobs specific needs. CALLAHEAD's accessory options are available to give you the most out of your WATERSHED 16 rental.

External Hose Cock is the threaded exterior faucet used to attach a garden hose.
