

FOG HORN SHOWER TRAILER

CALLAHEAD has been in the portable sanitation industry since 1976, providing the cleanest and most advanced equipment in the field. Portable showers are a high-demand product CALLAHEAD offers to ensure healthy and sanitary conditions for the public. CALLAHEAD's **FOG HORN Portable Shower Trailer** is for either long-term or short-term rental locations. For example, portable showers are necessary for a one-day special event such as sporting events, marathons, or military drills. Or suppose you require a shower for long-term situations such as pools and beaches, construction sites, bathroom renovations, sporting facilities, parks, etc. CALLAHEAD's **FOG HORN Shower Trailer** delivers two showers in one convenient rental with a home-style bathroom design while being completely portable. In addition, thermostat heat will ensure comfort inside year-round.

The **FOG HORN Shower Trailer** delivers two single and completely private showers with separate handwashing sink in each room. Each shower room has its own separate entrance with a lockable door that triggers an exterior occupancy sign for assured privacy. The privacy inside each provides the same privacy you would feel if showering in your home. The separate showering area has a shower curtain with a separate drying and dressing area. So your clothing and personal items will stay dry and provide plenty of room for dressing. There is also a separate handwashing sink and a vanity mirror wall mounted above the sink. The **FOG HORN** delivers hot and cold running water for the sink and shower to deliver the perfect temperature for guaranteed showering and handwashing comfort.

The **FOG HORN Shower Trailer** is often required during emergencies and disaster locations in New York. The **FOG HORN Shower Trailer** has a bright white exterior with outdoor lighting, which is ideal for evening use. The two shower rooms have separate floating staircase entries with stainless steel handrails. The self-closing doors lock on the inside to trigger the exterior occupancy sign. CALLAHEAD will deliver the **FOG HORN** fully stocked and filled with soap and shampoo dispensers at no extra cost. First responders and victims will appreciate the opportunity to have a hot water portable shower trailer available so they may clean away bacteria or other dangerous materials they may come in contact with during crises.

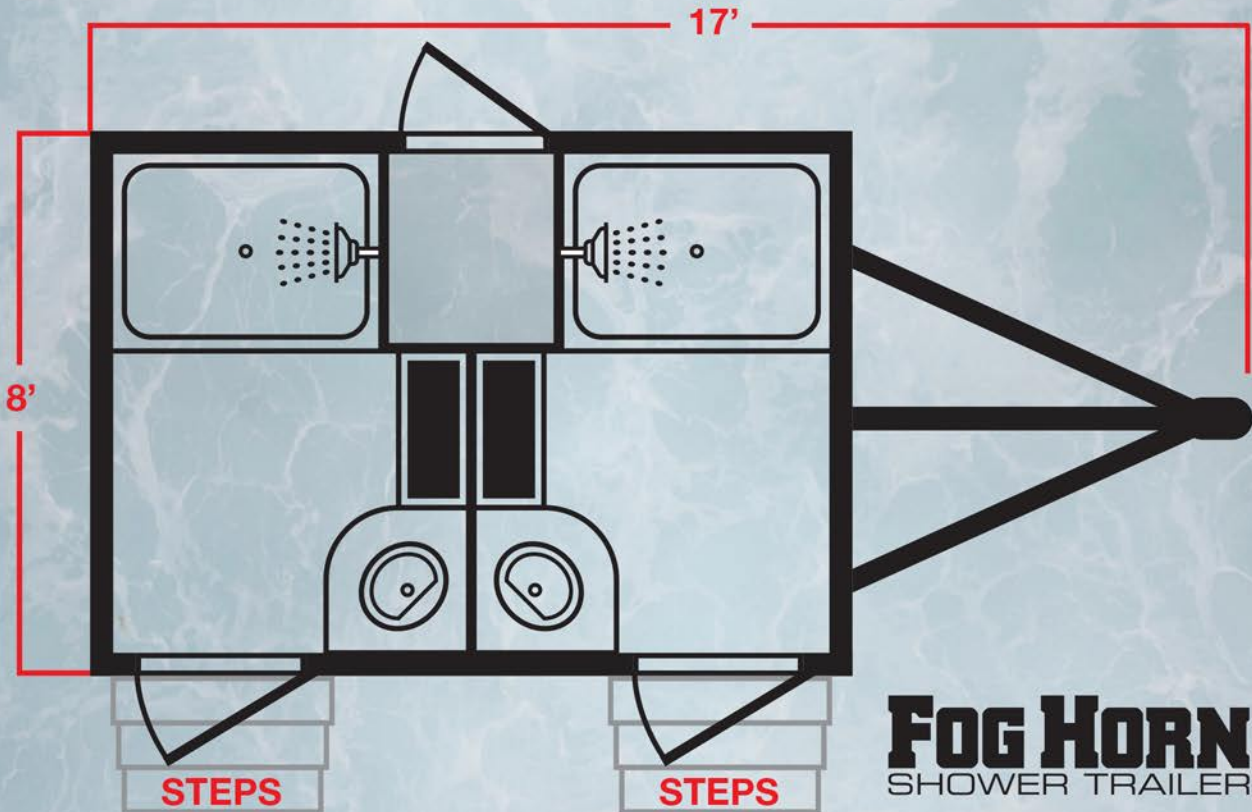

Once inside the **FOG HORN Shower Trailer**, you will notice the very spacious and very comfortable design. The grey high gloss painted walls have white trim throughout. The floors are a wide-planked faux wood Armstrong flooring adding to the homelike design. Inside the shower stall are faux marble walls that look like a home shower, and it also operates like one. The single lever faucet can be adjusted to the perfect temperature. A stainless steel shower head can also be adjusted to direct the water to the perfect location. Inside both shower rooms is a bench seat located directly outside the shower stall to help with dressing and undressing. A handwashing sink has a single lever faucet and hot and cold water options. LED high-hat ceiling lights provide plenty of light inside the trailer.

Conveniently, the **FOG HORN Shower Trailer** can hook up to a simple garden hose to provide as much water as you need. Yet, suppose there is no water available. In that case, the **FOG HORN Portable Shower Trailer** rental can also connect to one of CALLAHEAD's freshwater holding tanks where we provide any location clean, fresh water for a revitalizing showering experience.

Construction workers will benefit from the **FOG HORN Portable Shower Trailer** rental at the job site too. New York construction workers will be grateful for the ability to clean off hazardous materials they come in contact with each day, such as paints, cement, and other solvents that cause serious skin irritations, dermatitis, or skin illnesses. Sporting locations for after the game or a swim in the pool or ocean also benefit from showering to clean off sweat, dirt, chlorine, or saltwater. CALLAHEAD's **FOG HORN Shower Trailer** is commonly rented for beach and pool locations to give New Yorkers the ability to sanitize and refresh after a long hot day in the sun and swim.

The **FOG HORN Portable Shower** rental is more similar to a private shower taken in your own home than any other public shower system available. The portable shower has a non-slip floor and a superior drainage system for safety, so you will not need to worry about water build-up. The **FOG HORN** is better than any public shower in gym facilities or country clubs because you have two single enclosed shower rooms with lockable doors for guaranteed privacy. With an occupancy indicator on the exterior door, users will feel inaccessible once inside this homestyle portable shower trailer.
