

CABLE HEAD

THE CABLE HEAD -- PORTABLE TOILET WITH CABLE FOR HIGH RISE

The CABLE HEAD provides building, bridge, barge, sewer or other remote construction sites a full size port a potty for their workers. Placing a portable toilet nearby is convenient for the worker and definitely cost efficient for the employer. High-rise building construction throughout Manhattan is seldom only a few stories high.

CALLAHEAD'S CABLE HEAD will provide workers portable toilet facilities conveniently near their work site location no matter what floor. In high rise building construction without working elevators, it takes substantial work time away from the job to travel to the ground level to use the portable toilet. The CABLE HEAD will eliminate the need for workers from taking valuable work time to travel to the ground level and back just to use the bathroom.

Renting the CABLE HEAD will add to the productivity at the job site that is guaranteed to be cost effective to the employer. The CABLE HEAD has an extra large holding tank and separate non-splash urinal that can handle heavy bathroom usage. Workers will also be grateful for the convenience of hand sanitizing capabilities that is standard with the CABLE HEAD rental. The hand sanitizer is mounted inside the porta potty and filled with a waterless hand sanitizer that kills 99.9% of germs and bacteria. This protects employees from spreading illnesses to one another while assisting in the reduction of sick time taken from work for a more productive jobsite.

Construction workers will value the abundance of room they will have to maneuver inside the CABLE HEAD portable toilet. Even when wearing bulky tools and clothing, workers will be able to move freely inside this full sized portable toilet rental. The porta potty is completely enclosed, has a lockable door and occupancy sign so workers are rest assured of their much desired privacy when using the bathroom. This extremely durable portable toilet is constructed of twin sheet polyethylene panels, making it one of the most durable portable toilets on the market. The ventilation system is superior with 14 individual air vents throughout to disperse odors quickly from previous users.

The CABLE HEAD looks great on the jobsite too. It's orange and grey colors match well with construction equipment at the jobsite. This will establish to your clients and the public, that you are a well structured and highly regarded organization. Best of all, the CABLE HEAD will give your construction site workers the CALLAHEAD brand of port a potties. CALLAHEAD'S CABLE HEAD supplies construction sites convenient and sanitary portable toilet facilities no matter what their location. Even high rise buildings without elevators or stairways, can receive the best portable toilet rentals in the portable sanitation industry.

HARD TO REACH LOCATIONS TO RENT THE CABLE HEAD:

The CABLE HEAD is valuable to many hard to reach locations that are widespread throughout all of New York City's five boroughs, Nassau and Suffolk Counties and Westchester County. Common construction jobs the CABLE HEAD is essential include, tunnel construction, bridge construction, train construction, sewer construction, underwater construction, overpass construction, barge construction and ship construction job sites. It is the perfect resolution when a job site requires a portable toilet to be placed below ground level, lifted above ground level or even taken across the water to a barge or ship.

BENEFITS OF HAND SANITIZING CAPABILITIES ON THE JOB SITE:

Construction workers will be thankful to have a full size and private portable toilet. In addition, they will also be very grateful to have hand sanitizing capabilities for their hygienic protection. Scientific studies have proven that hand-to-hand contact is a major cause for illnesses which can be prevented through proper hand sanitizing. Scientists estimate that up to 80% of infectious diseases are transmitted by touch. Because of this shocking statistic, every construction job site should have proper hand sanitizing capabilities for a healthier environment.

Our waterless hand sanitizer mounted inside the CABLE HEAD kills 99.9% of germs and bacteria and meets OSHA and Health Department requirements. The CABLE HEAD'S hand sanitizer is a convenient way to safeguard you and those around you from germs and bacteria that cause many serious diseases and infections such as, influenza, E.coli, salmonella, meningitis, and gastrointestinal infections. Perfect for your sanitary protection before and after using the porta potty, the antiseptic dispenser is maintained 100% by CALLAHEAD and refilled as needed at no extra cost to you!

WHY CHOOSE CALLAHEAD FOR BUILDING AND HARD TO REACH CONSTRUCTION SITES

CALLAHEAD has been servicing New York's construction and contracting jobsites since 1977. Our decades of experience delivering, servicing and removing portable sanitation equipment from high-rise building construction and other remote locations has made us the experts in our field. CALLAHEAD supplies like new port o potties with a cleaning service that surpasses all others in the industry.

Our trained uniformed delivery and service technicians arrive at every jobsite in reliable, brand new and shiny clean delivery and service trucks. Unlike other companies, we take special care to ensure all aspects of our service are sanitary. If a company cannot keep their vehicles and equipment they use to service your portable toilet clean, how can they even sanitize your portable toilet rental? Our service technicians clean every portable toilet with hospital grade sanitizing cleaning products and detail your port a potty to look shiny and new at every service.

We put attention to every detail to make sure our customers are proud to have CALLAHEAD on their jobsite. We will never compromise on providing the best possible service for our customers.

All of CALLAHEAD's equipment is available for same day delivery throughout New York City's five boroughs of Manhattan, Bronx, Brooklyn, Queens and Staten Island, Nassau and Suffolk Counties on Long Island and all of Westchester County. Whether your job site is on the top floor of a skyscraper or across the water on a barge, let CALLAHEAD solve all of your portable toilet needs.

THE CABLE HEAD PORTABLE TOILET'S OPTIONAL ACCESSORIES

For added convenience, we are proud to offer the below list of optional accessory items with your CABLE HEAD portable port a potty rental.

CALLAHEAD's rental accessories for our portable toilets were selected to give construction workers, contractors or anyone using our long-term port o potty rentals the same comforts and hygienic protection as if they were using an indoor restroom.

CALLAHEAD's portable restroom accessory items are unmatched in the portable toilet industry and include:

• GoJo Hand Cleaning Dispenser can be installed inside the CABLE HEAD port a potty and filled with the #1 heavy duty GoJo hand cleaner. GoJo hand cleaner is popular among auto mechanics for its ability to break down grease and grime easily. GoJo Hand Cleaner has become widely popular with construction workers and contractors to remove acids, cement and other solvents from hands. 100% maintained and refilled when needed by CALLAHEAD with its rental

• Headliner Toilet Seat Cover Dispenser can be installed inside the CABLE HEAD portable portapotty filled with 250 toilet seat covers so every user may have a clean, dry and sanitary toilet seat. Headliners are refilled when needed and 100% maintained by CALLAHEAD when rented

• Headmist Time Released Air Freshener can be installed inside the CABLE HEAD port o potty that will release a clean fresh scent automatically. The Headmist is refilled when needed and 100% maintained by CALLAHEAD with its rental

• Containment Tray is highly recommended to accompany every portable toilet rental to assist in meeting local, state, and federal run-off regulations. Any fluids that may leak from the portable restroom will conveniently drain towards the rear of the tray to a pump out location for our uniformed service technician to remove when servicing.
