Head Rest

*Innovative Restroom
Created Exclusively by Callahead*

Introducing CALLAHEAD's revolutionary HEADREST portable restroom invented by our President and CEO, Charles W. Howard. The HEADREST is a portable restroom that was designed to operate just like a home bathroom. This is an innovative design from the operating system to the structural and interior design. It is a great portable restroom for any long-term rental need such as construction sites, bathroom renovations, restaurants, parking lots, etc.

The HEADREST is an excellent choice for any location you want a homelike restroom and not a traditional portable toilet. The HEADREST was constructed using only quality heavy-duty materials of high-density polyethylene marine grade plastic. Available in multiple colored options including white, blue, gray green and orange so you can select the best color for your location.

The striking exterior includes marine grade aluminum corner moldings, base moldings, and aluminum panels. The roof moldings have aluminum trim with aluminum flats. The marine grade diamond plate aluminum and built-in marine grade stainless steel fasteners create an incredible look consistent of its durability.

The HEADREST is equipped with a self-closing aluminum door displaying the CALLAHEAD brand on the exterior. The key lock entry door also has an interior locking system to ensure every user is guaranteed privacy.

As soon as you enter the HEADREST, you'll quickly forget you entered a portable restroom. The beautiful faux granite walls have white finished wood base moldings, chair rail moldings, crown moldings and corner moldings. The detail carries up to the white finished wainscot wood ceiling with five high-hat lights to supply plenty of light inside the restroom. Armstrong faux mosaic marble flooring adds to the restrooms homelike design. The full vanity has statuary marble countertop with a 3" marble backsplash.

The porcelain sink basin has a Moen automatic faucet and supplies hot and cold running water. Built-in Georgia Pacific soap and hand towel dispensers are all in a splash blue color that jumps off the faux granite walls. A vanity mirror is mounted above the sink. There is also storage under the sink for extra supplies. The low flush porcelain toilet bowl has an easy foot pedal flushing system for hands-free operation. The Georgia Pacific dual covered toilet paper dispenser, also in splash blue, is easily accessible.

The HEADREST is an entirely self-contained restroom with a built-in freshwater supply. Unlike other portable toilet companies, CALLAHEAD created two different systems which operate the sink and toilet bowl from two completely separate water supplies for a greater sanitary bathroom environment.

Because the HEADREST is completely insulated, it operates in well below zero temperatures to easily handle the coldest New York winter months. Plus, the stainless steel fan forced built-in wall heater is thermostat controlled for guaranteed user comfort. This is yet another CALLAHEAD portable restroom that is unavailable anywhere else.
