CALLAHEAD'S WORLD VIEW 32 is constructed of high-density polyethylene marine grade plastic and built using only premium heavy duty materials. Marine-grade aluminum and built-in marine-grade stainless steel fasteners deliver a durable eye-catching design. The WORLD VIEW 32 is available in many color choices which include blue, green, orange, yellow, black, brown, indigo, arctic white, dolphin gray, and red. Offering so many color choices with a polished aluminum finish creates an extraordinary design to coordinate with any setting to look spectacular and add value.

Offering color choice gives our clients the ability to select the best WORLD VIEW 32 for the location so it looks like it was built and designed especially for you. For example, in residential areas or parks we would recommend a green WORLD VIEW 32. An orange WORLD VIEW 32 is our go-to in the construction field to add to the work site's safety equipment. The white WORLD VIEW 32 is the clear choice for a medical building or hospital. A blue WORLD VIEW 32 goes nicely with a school or athletic field as well as for the NYPD or any law enforcement use. Red is ideal for the FDNY and fire emergencies. A brown WORLD VIEW 32 will be an excellent choice for a parking garage. Whichever of the ten color choices best match and represent your university, business, team or setting, CALLAHEAD has the perfect WORLD VIEW 32 for you. Mr. Howard's analysis for designing and manufacturing so many color choices is to provide our clients with a security guard booth or cash and ticket collection booth that looks as if it was built specifically for your location.

There is no doubt there is no other security guard booth like CALLAHEAD's World View series. The WORLD VIEW 32's design and construction is unmatched.
