

CONSTRUCTION Wash & Flush

Introduced to the Portable Sanitation Industry by **CALLAHEAD**

CALLAHEAD's CONSTRUCTION WASH AND FLUSH is the ideal solution for job sites to attain a portable flushable toilet along with hand washing capabilities for superior hygiene. It is normal practice to wash your hands after using the bathroom to eliminate the possibility of spreading germs by killing harmful bacteria. However it is also extremely beneficial to protect workers handling solvents and other hazardous materials to have handwashing capabilities on your job site. The Center for Construction Research and Training (CPWR) states, "Lack of cleaning facilities on construction job sites increases the likelihood of dermatitis, caustic burns from extended contact with wet cement, or acid burns from muriatic acid or other hazardous agents that come in contact with the skin, and infection." Handwashing capabilities at every job site is a necessity and studies have proven will decrease time off from work as well as workman's compensation claims due to harmful skin irritations and infections. The **CONSTRUCTION WASH AND FLUSH's** sink is a foot operated pump for hands free washing which adds to this sanitary system. **CALLAHEAD** supplies antibacterial soap which kills 99.9% of germs and bacteria as well as paper towels as needed providing worry-free sanitary operation. Also for added protection our sinks fresh water holding tank is completely separate from the grey water tank as well as the toilets holding tanks. All tanks are hard sided so you are rest assured from any grey water contamination. This full service portable toilet flushes waste into an enclosed tank combined with its floor and ceiling vents creating the chimney effect giving each user an odor free visit to the restroom. **CALLAHEAD's CONSTRUCTION WASH AND FLUSH** allows any job site to have two units in one, eliminating the need for a separate portable toilet and sink system. Employees will appreciate not only the flushable toilet but the ability to protect themselves from hazardous materials as well as spreading and receiving germs while in the field. The **CONSTRUCTION WASH AND FLUSH** will also look cool, clean and crisp on any job site due to its gray and white exterior giving the clean look of stainless steel and white ceramic. Complete with a mounted interior light fixture, the **CONSTRUCTION WASH AND FLUSH** has all the amenities for a convenient and pleasant trip to the restroom. **CALLAHEAD** has the largest variety of portable toilets, portable sink systems, high-rise toilets, guard sheds, portasheds, porcelain toilet systems, holding tanks, fresh water delivery etc. than any other company in our industry. Our variety allows our clients the ability to customize our equipment to suit their particular needs whether it's number of workers, length of the job, type of job, budget, location etc. Our **CONSTRUCTION WASH AND FLUSH** is the perfect way to give your employees the full service restroom capability with a portable toilet that they will surely appreciate.
