Job-Site HEAD

THE JOB-SITE HEAD IS THE RECOMMENDED UPGRADE FOR ALL JOB-SITES.

IT WILL PUT YOUR SITE OVER THE TOP IN THE DEPARTMENT OF TOILET FACILITIES.

We chose the orange and grey colors so it will fit right in with the job site colors of concrete and machinery. The look is extraordinary. While these toilets are on the job-site it will actually help give your job-site a sense of quality.

The Job-Site Head is constructed of twin sheet polyethylene panels, making this portable toilet the strongest toilet on the market today. It also has a large 80 gallon holding tank as opposed to the standard 60 gallon holding tank used throughout the industry today.

There are 14 built in air vents to dispense odor, making the Job-Site Head completely odor free (when not over used). The toilet seat is an extended no-touch seat. This option is the future of public bathroom use.

Every Job-Site Head also comes standard with an antiseptic gel dispenser to wash your hands before leaving the bathroom. CALLAHEAD continues to help New York job-sites be the best they can be.
