WWW.CALLAHEAD.COM

CALLAHEAD has become known for how very clever and witty it can be. When it comes to new products from **CALLAHEAD** not only are the ideas and creations alone one-of-a-kind, but the name or title given to each new product has its own significant meaning as well. **CALLAHEAD** now introduces **The Shipshead 16**. The term "head" derives from sailing ships in which the toilet area for the regular sailors was placed at the head of the ship. In sailing ships this position was sensible for two reasons: first, since most vessels of the era could not go against the winds very well, the wind mostly came from the side placing the head essentially downwind; secondly, if placed somewhat above the water line, vents or slots cut near the floor level would allow normal wave action to wash out the facility. With this definition in mind, **CALLAHEAD** created **The Shipshead 16**. **The Shipshead 16's** ocean like appearance gives the illusion of something more than just a toilet, while fulfilling all of your bathroom needs. **The Shipshead 16** is designed to be completely odor free. For your personal convenience, **The Shipshead 16** comes fully equipped with a Dual Roll toilet tissue dispenser, a seat pad dispenser, a stainless steel deck mount soap dispenser and a single fold paper towel holder. **The Shipshead 16** is specially designed to be completely solar powered, requiring absolutely no power or water supply to operate. Fabricated from smooth marine grade plastic construction, **The Shipshead 16** is completely dirt resistant and its durable and pristine white and light grey interiors project an ambience of ultra cleanliness. Restrooms are critical to your guests comfort and satisfaction, let **CALLAHEAD** and **The Shipshead 16** take care of all your sanitary needs for that special event. **CALLAHEAD** to reserve your **Shipshead 16** today!
