### SANITARY FACTS:

Keeping hands clean is one of the most important ways to prevent the spread of infection and illness. Infectious diseases commonly spread through hand-to-hand contact include the common cold, flu, and other illnesses. • The CDC has concluded, "handwashing" is the single most important means of preventing the spread of infection. • The hands are the most likely part of the body to come into contact with harmful substances. Failure to take basic precautions can lead to skin complaints such as dermatitis and eczema. You must avoid hand contact with any hazardous substance. Inadequate hand hygiene also contributes to food-related illnesses, such as salmonella and E. coli infection. According to the Centers for Disease Control and Prevention, as many as 76 million Americans contract a food-borne illness each year. • For proper hygiene it is recommended to have a minimum of one (1) Washing Station per 4 restrooms. • Handwashing is a critical element in proper hygiene as germs can stay alive on hands for up to 3 hours.

### ALWAYS WASH YOUR HANDS BEFORE AND AFTER:

Using the bathroom • Handling irritating substances such as acids, solvents, or cement • Eating • Preparing food • Blowing your nose, coughing or sneezing • Handling garbage • Treating wounds • Changing a diaper • Touching a sick or injured person • Inserting or removing contact lenses

As regulatory enforcement and requests for washing options increases, **CALLAHEAD®** Corporation yet again solves your sanitation needs with the **Wash Basin®**. The U.S. Center for Disease Control and Prevention has concluded, "handwashing" to be the single most important means of preventing the spread of infection. So whether it's a job site or special event you will need or may even be required to provide a handwashing capability which makes the **Wash Basin®** your answer. **CALLAHEAD®**'s **Wash Basin®** arrives fully equipped with a filled fresh water tank with built-in soap and paper towel dispensers for your convenience. The **Wash Basin®** also has a separate holding tank into which the gray water is discharged for excellent hygiene. The **Wash Basin®** is simple and effective which features a foot pedal for an immediate stream of fresh water to the user. Users will appreciate the function, design, and improved sanitation offered by the **Wash Basin®**. To ensure use of the **Wash Basin®** it is best placed in close proximity to **CALLAHEAD®**'s portable toilets for easy access and a healthier job site or event. Each **Wash Basin®** is maintained by **CALLAHEAD®** Corporation which gives you the quality and reassurance that your job site or special event is a sanitary one.
