

## THE CALLAHEAD<sup>™</sup> WHITE WASH 16<sup>™</sup> RESTROOM 16

The WHITE WASH 16<sup>™</sup> is a portable restroom meticulously designed for clients who refuse to settle for anything less than a true, bathroom-quality experience. Created by Charles W. Howard, President and CEO of CALLAHEAD<sup>™</sup> and a prolific innovator with countless inventions, this restroom reflects the same award-winning innovation and attention to detail that have made CALLAHEAD<sup>™</sup>, in business since 1976, the world's greatest portable sanitation company and a global leader in the industry. For nearly five decades, Mr. Howard has shaped the field with countless designs and inventions, and the WHITE WASH 16<sup>™</sup> Restroom is a showcase of that expertise. Exclusively manufactured and serviced by CALLAHEAD<sup>™</sup>, this restroom cannot be obtained from any other provider, giving your project or event a level of exclusivity and quality that stands apart from standard portable toilets. The interior is equipped with a porcelain flush toilet, a handwashing sink featuring both hot and cold water, an automatic hand dryer, a vanity mirror, and thermostat-controlled heating and air conditioning, ensuring comfort and convenience comparable to a home restroom.

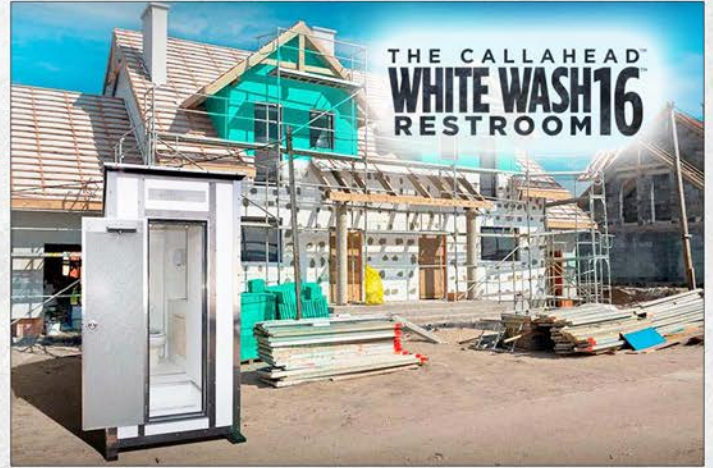

From the outside, the WHITE WASH 16<sup>™</sup> design looks more like a small permanent structure with its spectacular design. The WHITE WASH 16<sup>™</sup> Restroom features a marine-grade plastic exterior with sturdy aluminum plates and stainless steel CALLAHEAD<sup>™</sup>, specialty signage, offering both durability and a sleek, professional appearance. The design also includes marine-grade aluminum corner moldings, base moldings, and panels, while roof moldings are accented with aluminum trim and flats.

The automatic door closure on the entry enhances convenience and helps maintain the restroom's pristine interior climate. Its all-aluminum structural frame, aluminum exterior panels, and stainless-steel trim endcaps deliver the strength, stability, and corrosion resistance needed at demanding sites, all while providing elegant lines and a clean, architectural look. Stainless steel exterior fasteners prevent rust streaks and keep the exterior looking crisp and bright. With exterior dimensions of 93" high, 47" wide, and 47" deep, and supported by an aluminum skid base, it offers a substantial, commanding presence while still fitting into tight areas at event venues, brownstone-lined streets, urban construction sites, and residential properties. The slim lined footprint and professional appearance make it equally at home at a luxury waterfront wedding as it is on a high-profile commercial jobsite.

Inside, the WHITE WASH 16™ offers a 41" X 41" interior space with a 68" x 19" door opening, creating a bright, open, and comfortable space that feels closer to a private bathroom than a portable unit. The interior space allows guests and workers to move comfortably or assist children when needed. The self-closing door has an interior door lock for assured privacy. Marine-grade starboard interior components deliver exceptional moisture resistance and long-term durability, while smooth, wipe-clean surfaces make it quick and easy to maintain a spotless, sanitary environment.

The stainless steel handwashing sink in the WHITE WASH 16™ provides both hot and cold water with automatic shut off. Above the sink, you'll find a stainless steel dispenser filled with antibacterial soap, as well as an automatic hand dryer. Proper handwashing improves hygiene, which is especially important at food events, gatherings, workplaces, and job sites. This practice helps reduce the spread of germs for guests and staff alike, creating a safer environment. An overhead 13,000 BTU air conditioning system and a wall mounted fan forced heater can be adjusted to keep users comfortable any time of year. Interior LED lighting—combining an overhead fixture delivers plenty of light, giving users a clean, secure feeling any time of day or night.

At the heart of the WHITE WASH 16™ is a true fresh water flushing system, engineered to give users the experience they expect from a sewer connected private restroom. Instead of looking into an open holding tank, guests see an enameled toilet with a porcelain bowl, producing a residential-style appearance and feel that instantly elevating the perception of your event or job site. The flush system uses fresh water to rinse the bowl, helping to minimize odors and create a better experience for users. Featuring a porcelain bowl, this portable restroom offers both a visual and practical upgrade compared to typical models, making it a perfect choice for upscale events or situations where a home-like appearance and comfort is important. A fresh water supply feeds the flushing system and the interior handwash sink, while a waste holding tank and separate gray water tank manage waste efficiently without any worry of cross contamination. The WHITE WASH 16™ Restroom maintains optimal sanitation and water quality by ensuring complete separation of fresh and waste water systems.

Featuring a porcelain pedal flush toilet bowl, a wall-mounted toilet paper holder, and a coated steel handwash sink supplied with dedicated hot and cold fresh water feeds, the WHITE WASH 16™ is equipped for effective hygiene management. Additionally, it includes a stocked antibacterial soap dispenser, a wall-mounted hand dryer, and smooth interior finishes, collectively supporting proper hygiene practices and a consistently clean appearance. These features combine to deliver a premium experience that guests appreciate at weddings, VIP events, and private parties, and that workers value during long days on construction or industrial sites.

## *"Invest In CALLAHEAD And Change The World"*

*- Charles W. Howard, President & CEO*

CALLAHEAD™ proudly provides the WHITE WASH 16™ with professional delivery, setup, and service throughout New York City and Long Island. This includes all of New York City's five boroughs of Brooklyn, Queens, Manhattan, the Bronx, and Staten Island, as well as Westchester, and all of Nassau and Suffolk Counties on Long Island, extending all the way to Montauk Point. Whether you are planning an elegant estate wedding in the Hamptons, hosting a corporate event in Midtown Manhattan, managing a film production in Brooklyn, or running a long-term construction project anywhere in the region, CALLAHEAD™ delivers the WHITE WASH 16™ directly to your site and maintains it to the highest standards in the industry. When you choose this restroom, you are not just renting a portable restroom—you are investing in a premium CALLAHEAD™ experience that reflects positively on your event, your property, and your company.

By combining a flushing porcelain toilet, built-in running water handwash sink, bright LED lighting, and rugged all-aluminum and marine-grade construction, the WHITE WASH 16™ raises the standard of portable sanitation on any site. Its gorgeous marine-grade design—conceived and engineered by Charles W. Howard, President and CEO of CALLAHEAD™—showcases the work of an award-winning builder and inventor whose countless innovations have redefined what a portable restroom can be. Every line of the exterior, from the architectural aluminum design to the stainless steel CALLAHEAD™ signage, reflects Mr. Howard's commitment to beauty, strength, and long-term durability, while the interior's marine-grade starboard surfaces and wipe-clean finishes create a bright, crisp and clean environment that feels more like a private bathroom than a temporary unit.

### THE WHITE WASH 16™ RESTROOM OPTIONAL ACCESSORIES TO RENT:

For added convenience, we are proud to offer the below list of optional accessory items with your WHITE WASH 16™ Restroom.

Antiseptic Dispenser can be installed inside your WHITE WASH 16™ Restroom filled with our waterless hand sanitizer. Our waterless hand sanitizer kills 99.9% of germs and bacteria and meets OSHA and Health Department requirements.
